Has dry weather delayed plantings? Perhaps this would be a good year to sell and recommend a Drought Resistant FRONTIER HYBRID. FRONTIER 400C is Florida's outstanding Grain Sorghum. 400C is a heavy grain yielder - makes high quality Silage or high quality Green Chop. HYDAN (Sorghum-Sudan cross) is excellent for grazing and/or for Silage and Green Chop. Note - graze mature growth only (after 18" to 24" tall) and delay grazing after drought or freeze.
